As active investigators, you have unrestricted access to the data collected from your own centre which can be downloaded from your account. In order to access a wider range of data for a particular bronchiectasis research question, an application form must be submitted to the EMBARC study coordinator. This form can be downloaded through a direct link on the website which also provides further details. The page can be accessed directly [here](#)

Facilitating Research Into Existing National DataSets (FRIENDS) is an affiliated registry that contains data from 6 countries, but has the advantage of having up to 5 years follow-up data. For more information surrounding this data please visit the EMBARC [page](#)
